# Ben Jones biography

**ABOUT**

Ben joined DC Advisory in 2019 from Palatine Private Equity where he had been in the Origination team for over five years.

With over 13 years' experience, he is responsible for private company Origination in the UK and enjoys building relationships with new management teams on a daily basis.

**Ben says,** "It's inspiring to meet new businesses from a range of different sectors and to understand the journey they have been on to get to where they are. I love forming lasting relationships with these teams and hopefully helping them achieve more success in the future."

**Richard Tredwin, CEO at SRL Traffic Systems Limited, says:**

"From a standing start and over a number of months, Ben developed a strong and knowledgeable understanding of the SRL business / market and importantly a trusted working relationship with myself and the SRL Board, including PE investors. This led to continued engagement as we began to consider our options and timings around exit. Ben's professionalism and approach, coupled with regular dialogue really stood out and gave us a lot of confidence to embark on the exit preparations and journey."
