# DC Advisory advised Fintellix on its sale to Verisk Analytics, Inc.

DC Advisory India is pleased to announce that its client **Fintellix**, a Bangalore-based data software company specializing in regulatory reporting solutions and data management platforms for financial institutions, has been acquired by **Verisk Analytics, Inc.** (NASDAQ:VRSK), a leading data analytics provider. Fintellix will be part of Argus, a Verisk Analytics business.

This is the second transaction that DC Advisory India has conducted on behalf of Fintellix (previously known as iCreate Software).

The solutions offered by Fintellix enable financial institutions to leverage their current investments in core operating systems and infrastructure in a robust, agile, and scaled manner. The entire Fintellix team is excited about becoming part of the Verisk family.

Vivek Subramanyam  
CEO of Fintellix

We are glad to have acted as the financial advisor on this sale transaction for Fintellix, after having worked with them on their Series B capital raise and are excited to have created a successful outcome with a global data analytics leader like Verisk. Congratulations to Vivek, Anup and team as well as IDG and Sequoia on achieving this major milestone, and wishing the Fintellix team all the best in the next chapter of their professional journeys as part of Verisk.

Klaas Oskam  
Managing Director at DC Advisory India
