# DC Advisory advised Active Day on its merger with Senior Care Centers of America

Active Day has completed its merger with Senior Care Centers of America. The transaction results in the creation of the largest adult day care company in the United States operating 76 centers in 11 states. DC Advisory\* acted as exclusive financial advisor to Active Day in connection with this transaction.

Active Day was founded in 1995 with the goal of creating a nationwide network of community-based health care services to meet the needs of adults with disabilities, the elderly and their caregivers. Since then, Active Day has created the largest network of owned and operated centers for medical adult day services, including in-home personal care and outpatient rehabilitation in selected locations. This network of 49 centers in 7 states provides adult day services to more than 3,000 participants. Senior Care is a premier provider of adult day health services in the United States with 27 centers in New Jersey, Pennsylvania, Connecticut and Mississippi. Senior Care is the leading independent provider in its core markets.

Each of its adult day health centers enables frail, elderly or disabled adults to live at home and remain independent in their communities while receiving health care and supervision during the day, as well as providing relief and respite for caregivers.
