# DC Advisory advised InformDS Technologies (Doxper) on its growth investment from Alkemi Venture Partners, GrowX Ventures and others

InformDS Technologies (Doxper), the Mumbai-based service provider of digital health data capturing, and backed by Vidal Health, has received equity capital from India focused venture capital firms Alkemi Venture Partners, GrowX Ventures, Rainforest Venture Network and others.

The funds raised will contribute to Doxper's expansion across India and further the investment into tech and R&D being planned to improve accuracy in machine learning / artificial intelligence-powered handwriting recognition and product developments.
