# DC Advisory advised InfoSnap on its sale to PowerSchool

DC US is pleased to announce that its client, InfoSnap, Inc., has been acquired by PowerSchool Group LLC, a portfolio company of Vista Equity Partners. InfoSnap is a leading provider of cloud-based Online Registration Management and School Choice/lottery solutions for K-12 public, private and charter schools. PowerSchool is the #1 leading provider of K-12 Student Information Systems (SIS), supporting 40 million users and over 15 million students in more than 70 countries.

The InfoSnap acquisition adds more than three million students currently on InfoSnap products to the PowerSchool community and enables PowerSchool to address market demand for integrated registration and school choice solutions for schools, administrators, and families.

The InfoSnap team is very excited to become part of the PowerSchool team. This deal is the culmination of a long, successful partnership and enables PowerSchool to help thousands of schools streamline administrative processes and better connect administrators, teachers, parents and students by delivering technology that simplifies school registration and school choice.

Lou Trotter  
CEO of InfoSnap
