Jason Li biography

ABOUT

Jason has over 10 years of experience in M&A, fundraising, IPO and corporate development. Sitting in the Asia Access team based in London, Jason plays an integral role in our China-related deal executions across DC Advisory.

Having started his career as a chartered accountant at KPMG, Jason has since been responsible for strategic investment and M&A in a major technology corporate and lately advising European technology companies in fundraising and M&A in a leading tech-boutique investment bank.

Jason holds a MPhil in Engineering from University of Cambridge and is a Chartered Accountant in England and Wales.

He says: "Cross-border M&A that brings together counter-parties from different regions, languages and cultural backgrounds can be extremely challenging. That's also the reason that I thoroughly enjoy what I do. It is a privilege to be part of the Asia Access team, a unique platform that leverages DC's in-depth sector expertise, global network of intelligent colleagues to help Chinese businesses embrace the world and vice versa."

COMPLETED TRANSACTIONS

DC Advisory advised AdaSky on securing an investment from Sungwoo Hitech

DC Advisory advised Rossignol Group on a minority stake sale to IDG Capital
