DC Advisory advised Appriver on its sale to Marlin Equity Partners

DC US is pleased to announce that our client [AppRiver](#), a leading provider of cloud-based cybersecurity and productivity software and services to over 53,000 companies worldwide, has been acquired by [Marlin Equity Partners](#).

Headquartered in Gulf Breeze, Florida, AppRiver offers a comprehensive suite of security products, including advanced spam and virus filtering, web malware protection, email encryption, secure archiving and email continuity services. The Company is also among the world's largest providers of Microsoft Office 365 and Secure Hosted Exchange, which are both backed by AppRiver's award-winning, white-glove customer support.

This is the seventh transaction closed by DC US's [Security and Risk](#) team since September 2016.

In a world with new and complex cybersecurity threats emerging daily, small and medium-sized businesses are increasingly looking to AppRiver as a trusted partner to keep their businesses productive and their information secure.

Michael Murdoch
CEO and co-founder of AppRiver
