David Dolan biography

ABOUT

Dave is part of our DC Advisory US team where he focuses on the transportation, logistics and supply chain technology sectors. He has more than 15 years' investment banking and M&A advisory experience.

Prior to joining DC, Dave was Vice President at Udata Advisors, having joined the firm in 2008. He has also held roles at Bear Stearns & Co., American Express Financial Advisors and Milestone Group.

Dave says: "Our Transportation, Logistics and Supply Chain Tech team has a 10+ year track record of advising innovative companies that enable, automate and simplify the movement, connectivity and visibility of goods, people and data across global networks. Our clients' software and technologies address key challenges across the entire transportation, logistics and supply chain ecosystem, including systems of record (TMS, WMS and SCM suites), fleet and field service management, freight matching and execution, driver management and hiring, and vertically-focused IoT."
