# DC Advisory advised CloudCheckr on a Series A stock investment from Level Equity

**CloudCheckr**

**LEVEL EQUITY**

DC US is pleased to announce that its client **CloudCheckr**, the leading cloud management platform, has secured \$50 million in Series A financing from **Level Equity**, a growth equity firm focused on providing capital to rapidly growing software and internet companies.

The funding round will bolster CloudCheckr's market-leading platform for modern enterprises, government agencies, and managed service providers who demand a comprehensive and scalable multi-cloud management platform that satisfies cost, security, utilization, and compliance concerns.\*

Level's investment is validation of the pressing need to get visibility and control of exploding cloud environments and we're excited to keep building, innovating, and giving organizations the tools they need to go fast at scale.
