Andrew Strudwick biography

ABOUT

Andrew is part of our DC Advisory UK team with some 20 years' experience in investment banking. He is responsible for our UK Financial Sponsors coverage.

Prior to joining DC, Andrew spent six years at 3i as an investor focused on growth capital and buyout deals in Europe, before which he was with PwC for nine years.

Andrew says: "I was initially attracted to DC because of its international platform and proven track record of leading mid-market deals. Since joining, I have also been equally impressed by the high-quality individuals I work with every day: it's rare to find such a fun and entrepreneurial culture in a corporate environment."
