DC Advisory has advised institutional infrastructure investors on the acquisition of Adven from Infracapital and AMP Capital

DC Advisory has advised institutional infrastructure investors on the acquisition of Adven, a leading provider of clean energy solutions across the Nordics and Baltics, from Infracapital and AMP Capital.

This transaction demonstrates DC Advisory's expertise in the energy sector and strengthens the firm's experience advising on transactions in Nordic and Baltic countries.

Adven is a leading provider of clean energy solutions, providing outsourced infrastructure with a comprehensive, competitive and sustainable offering. Adven's business is comprised of two segments, Industrial Energy Solutions, and Real Estate Heating & Cooling, which deliver clean energy solutions to its customers across five Nordic and Baltic countries.

The company, which develops its energy infrastructure through a finance, build, own and operate model, currently delivers energy to well over 300 sites corresponding to an installed capacity of approximately 2GW.
