DC Advisory advised iMapData on a Series A stock investment from Frontier Capital

FrontierCapital

DC Advisory* served as exclusive placement agent and financial advisor for iMapData, Inc. in its Series A Preferred Stock financing by Frontier Capital. iMapData provides an on-demand data integration, analysis and geospatial visualization platform to commercial, military and government customers that supports mission-based decision making.

iMapData will use the proceeds to provide partial liquidity to founding shareholders and drive the company's growth opportunities.
