Hear from our previous graduates

When I joined IBI as a graduate, I was immediately given exposure to live transactions and the opportunity to learn from experienced colleagues across the firm. Over the last number of years, I have developed both technically and professionally, progressing to a role where I now manage multiple live deals and lead day-to-day engagement with clients, management teams and other advisers. The responsibility and trust I have been given throughout my time with IBI has enabled me to accelerate my development and build a career in corporate finance

David Banks
Manager

DC Advisory's investment banking training was well-structured, and equipped me with a robust foundational knowledge, setting me up for success as I embarked on my career as a graduate. The emphasis IBI places on staff development truly reflects its core values, instilling in me the confidence and skills necessary to contribute meaningfully from day one

Rebecca Connellan
Executive

Since joining IBI, I have been given a level of responsibility that exceeded my expectations. From day one, I have contributed to live transactions, and I have since gained execution experience across the full deal lifecycle, working directly with management teams and key stakeholders. The support of senior colleagues throughout has given me an excellent foundation on which to build my career in corporate finance
