DC Advisory advised ALK Tehnologies on its sale to Trimble

SUNNYVALE, Calif., — Trimble (NASDAQ: TRMB) announced today that it has acquired privately-held ALK Technologies Inc. of Princeton, NJ, a global leader in routing, mapping, mileage and navigation technologies. ALK Technologies offers proprietary routing and international map-based solutions for transportation, logistics and mobile workforces.

The addition of ALK is expected to extend and complement Trimble's Transportation and Logistics product portfolio, including TMW Systems' transportation management solutions, PeopleNet's integrated onboard computing and mobile communications systems and GEOTrac's fleet management and worker safety solutions for the oil and gas industry. Financial terms were not disclosed.

ALK software products include CoPilot Live, which offers onboard GPS navigation for professional drivers; and PC*MILER, a truck-specific mileage solution recognized as an industry standard for logistics, manufacturing, government and transportation operations. ALK offers a consistent data platform for operational planning activities, such as mileage and routing and in-cab navigation applications used by fleet drivers. ALK products are sold worldwide and feature extensive international map data. Approximately 64 percent of North American for-hire motor carriers use ALK solutions, including 98 of the top 100 largest for-hire carriers, 47 of the top 50 logistics companies and 77 of the top 100 private fleets.

ALK Technologies business will be reported as part of Trimble's Mobile Solutions segment.

The addition of ALK Technologies expands the portfolio and scope of innovative solutions we can offer transportation providers, logistics companies and shippers. The combination of ALK's routing, mapping, mileage and navigation capabilities with our enterprise transportation management software and the mobile communications solutions under

the Trimble Transportation and Logistics umbrella supports our comprehensive and industry-focused technology approach.

David Wangler
President of TMW Systems, a Trimble Company

This is a significant milestone in ALK's long history in transportation. We are excited to join our well-known and respected partner TMW Systems under the global umbrella of Trimble. These organizations share our passion and vision for how location information can transform business and productivity.

Barry Glick
President of ALK Technologies
