James Pople biography

ABOUT

James is part of our DC Advisory UK team, with more than 12 years' investment banking experience.

James started life as an Analyst at DC, before briefly leaving to spend two years at UBS in 2010. Since re-joining the firm in 2012, he has worked predominantly across Business Services and Healthcare, and co-leads the Business & Tech-Enabled Services M&A team in London.

James says: "I re-joined DC because there is something special about the camaraderie here. The team is full of extremely competent people, all fiercely committed to delivering successful outcomes for our clients, which is what makes the job so enjoyable."

Client testimonial: "It has been a pleasure working with DC Advisory. We worked very closely with James over a period of several months, and his sector knowledge and process expertise, together with the hard work of the broader team, truly supported the Simplify management team. Throughout the transaction, DC were dedicated and professional and I would not hesitate to recommend them." *David Grossman, CEO, Simplify*
