UN SDG ACTIVITY

DC Advisory advises NPHub on its growth investment from Edison Partners

Background

- NPHub is the leading, end-to-end clinical education training network and hiring technology platform that matches nurse practitioner (NP) students and professionals with clinical rotations and job placements
- Through its innovative marketplace platform, NPHub supports NPs throughout their education and career journeys, supporting them to graduate on time, secure jobs aligned with their specific areas of training and interest and effectively contribute to the healthcare sector
- Amid an aging population and increased healthcare needs, the US healthcare system is hiring more NPs to offset physician shortages. NPHub delivers streamlined technology solutions to students, their universities and healthcare organizations, efficiently matching NPs with necessary clinical training and employment opportunities
- Since 2017, NPHub has placed students in over 10,000 quality clinical rotation placements. NPHub has also attracted more than 7,000 candidates and 60 employers as early adopters of its pilot NPHire job matching capabilities, which are set to launch in the coming months

Process

- DC Advisory exclusively advised NPHub on its growth investment from Edison Partners
- DC Advisory was selected because of its deep expertise in healthcare training and process execution expertise, particularly in the clinical education space

Outcome

- Edison Partners completed its investment in NPHub in June 2025
- Edison Partners' investment will help NPHub bolster its technology platform and growth initiatives, including developing enterprise solutions and partnerships with universities and employers, as well as the expansion of offerings for nurses and other healthcare professionals across their career lifecycles
- This transaction is DC Advisory's 18th deal focused on the intersection of Education and Healthcare

“Working with Justin Balciunas and his team at DC Advisory was one of the best decisions we made. Navigating an investment process is hard and time-consuming but with DC Advisory, the process flowed smoothly. They were incredibly well-prepared, deeply experienced in education and healthcare, and brought a strategic sixth sense to the process that you only get from doing this at the highest level. They earned our trust early, stayed calm under pressure, and were unbelievably responsive the entire way. A phenomenal partner – we’d absolutely work with Justin and his team again.”

Krish Chopra, CEO & Founder, NPHub
